-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-20 rejected under 35 U.S.C. 103(a) as being unpatentable over Peterson (5906371).

Peterson teaches a board game having a track (12), game spaces with indicia (14), multi-level cards (2:39-45), game pieces and random selection device (2:1-5).

The only difference between applicant's game and the cited reference resides in meaning and information conveyed by the printed matter that is not considered allowable. In this regard the educational board game of Peterson teaches a variety of subject matter that can be used for playing the game by merely changing the indicia on the game. In order to teach a periodical table and ask related question, it would have been obvious to modify the game to include indicia of periodical table.

One of ordinary skill in art at the time the invention was made would have suggested modifying game indicia to include periodic table subject matter to make the game attractive to players that are interested in such educational subjects.

Art Unit: 3711

With respect to alternative structures of means for presenting questions/answers, such means are commonly used as cards, books etc. and it would have been obvious to include such features in the game.

Note for applicant: Rules/methods for playing a game do not further limit the apparatus in the claim. For example limitations such as randomly selecting, determining value, based on, one directional, representing, do not tell structure of an apparatus. Also applicant's claim limitations (for example: are being broadly and
